

CLAYTON MARKET TOWNHOMES

Surrey, Canada

CLIENT: **MOSAIC Homes**

DATE: **2015 - Completion**

SCALE: **5,000s.m.**

This collection of 44 row homes is adjacent to the new Clayton Market Village (developed by MOSAIC). Based on the 'Salt-box' style of architecture these homes celebrate a bold contrast between white siding and dark grey cedar shake cladding. Complimented with pitched roof forms each

home has a distinct entry and is further emphasized through coloured entry doors and tiled accent panels adjacent to each door. On the interior, wood open riser stairs are incorporated to maintain the openness of the unit and to add an element of warmth to the interior design.
