

VAN PHONG BAY RESORT

Nha Trang, Vietnam

CLIENT: **Millenium International Group**

DATE: **2009**

SCALE: **33,000s.m.**

The resort concept envisions an exclusive, five-star, international standard spa resort development. The intimate setting, with its natural environment of forest hillsides, dramatic rocky outcroppings, sandy beaches and turquoise waters are distinguishing features of the resort. The resort amenities include a small marina, conference/meeting and wedding facilities, bars and restaurants, a night club, a spa, swimming pools, and a wide

variety of sports and leisure activities. The resort buildings are sensitively integrated into the stunning local natural environment. Designed to respond to the diversity of landscape within the site, the accommodation features villas nestled into the rocky boulder shoreline, villas stretched along the sandy beach, villas stilted over the shallow waters of the bay and villas perched on the steep hillsides overlooking the site and ocean.
